Profile

Senior Full-Stack Developer with 15+ years of experience delivering robust, scalable, and high-performance web and mobile applications. Expert in PHP, Laravel, Vue.js, Tailwind, and modern cloud infrastructure (AWS, Docker). Skilled in API development (REST & GraphQL), database optimization, and system refactoring for performance. Strong background in mobile development with Flutter (BLoC, clean architecture) and React Native (Redux). Proven ability to lead projects end-to-end, improve processes, and collaborate effectively in agile environments.

Employment History

Sombra — Senior Full-Stack Developer

August 2024 – Present · Medellín, Colombia · Remote

- Refactored core modules to significantly improve system performance and maintainability.
- Optimized complex database queries, reducing response times and improving scalability.
- Enhanced frontend performance by streamlining Vue.js components and improving rendering efficiency.
- Worked with Docker for consistent environments and deployments.
- Collaborated with cross-functional teams using Jira within agile workflows.

HOKO — Full-Stack Developer (Part-time)

November 2020 – August 2024 · Medellín, Colombia · Remote

- Built a custom dropshipping and logistics system from scratch using Laravel, Laravel Nova, and Laravel Forge.
- Managed AWS infrastructure: EC2, Redis, S3, load balancer, database replicas, and security.
- Implemented CI/CD pipelines with GitHub Actions.
- Contributed to architecture, planning, and AWS implementation ensuring scalability and reliability.

Cerobox SAS — Full-Stack Developer

September 2014 – Present · Bogotá, Colombia · Remote

- Developed web applications with Laravel, Vue.js, Tailwind.
- Built mobile apps with Flutter and React Native, using BLoC and Redux for state management.
- Integrated apps with backend systems via REST and GraphQL APIs.
- Led projects focused on process automation, achieving major efficiency and cost savings.
- Integrated third-party services including Firebase and Stripe.

Education

Systems Engineering

Universidad Distrital Francisco José de Caldas — Bogotá, Colombia

2011 – 2017

Skills

- Languages & Frameworks: PHP, Laravel, Vue.js, Tailwind, Flutter (BLoC), React Native (Redux)
- Databases: MySQL, MariaDB, PostgreSQL, MongoDB

- Cloud & DevOps: AWS (EC2, S3, Redis, RDS, Lambda), Docker, Laravel Forge, GitHub Actions (CI/CD)
- Others: REST & GraphQL APIs, Laravel Nova, performance optimization, caching (Redis, Memcache), search (Laravel Scout + MeiliSearch)
